NEW! BRUS Carbonator, wall mount

Stelton's wall-mounted Brus combines beautiful design with environmentally friendly functionality. Create your sparkling water or soda in reusable bottles and reduce your plastic consumption. The elegant soda machine is designed by Søren Refsgaard, known for his clean and functional design, where excess is eliminated. Brus' cylindrical forms, inspired by Stelton's classic design tradition, are clearly seen in the slim container for the carbon dioxide cartridge and the intuitive carbonation button. The wall-mounted Brus saves space on the kitchen counter and always comes with a bottle that complements the design. Make your everyday life beautiful and sustainable with this elegant carbonation machine.

BRUS carbonator (carbonating bottle included)

Price: 169,00 €

Brus carbonating bottle

Art. no. 2101

Price: 22,90 €

BRUS Carbonator

With the Brus carbonator, you can save the environment from large amounts of unnecessary plastic by making your own sparkling water or soda in reusable bottles. The design of the carbonator is so elegant that you will look forward to displaying it on the countertop. The designer behind it, Søren Refsgaard, is known for his clean and functional design where all superfluous elements have been removed. Brus is a particularly good example of this. The design draws on the cylindrical shapes that are classic to Stelton designs. The cylindrical shape is first seen in the ultra-slim container for the CO₂ cartridge, and again in the carbonation button, which you can intuitively turn clockwise to adjust the amount of carbonation, and counter-clockwise to detach the bottle from the machine.

BRUS carbonator (carbonating bottle included)

EM serving tray & EM77 jug with lid

EM serving tray Ø 40 cm

Present your tea and treats with elegance on Stelton's EM serving tray, a timeless masterpiece crafted in 1982. This tray boasts a simple, yet striking round design that perfectly complements the iconic EM kettle. It's incredibly convenient for holding cups and bowls, making it an ideal choice for gatherings. Inspired by the legendary design of the EM77 thermos, this tray embodies the essence of stylish serving within the Stelton EM series.

Size: 40 cm x 2.3 cm x 40 cm

Designer: Erik Magnussen

Material: ABS plastic

Price: 23,00 €

EM77 jug with lid 1.5 l.

This elegant tall EM jug with lid shares similarities with the worldrenowned EM77 vacuum jug from 1977 designed by Erik Magnussen. Use the EM jug for chilling drinks with ice cubes or for cooling drinking water in the fridge before serving at the dining table.

Size: 17 cm x 23.3 cm x 10.5 cm

Designer: Erik Magnussen Design

Volume: 1.5 L

Material: SAN platic, ABS plastic

Price: 38,00 €

EM77

Design Classic by Erik Magnussen 1977

EM77 vacuum jug 1 l.

This iconic vacuum jug, designed by Erik Magnussen in 1977, still looks good on any table, elegantly complementing your tableware. It started with an innovative patented tilting lid. Now the design conceals new functionalities: a French press, a press tea maker and an electric kettle. Enjoy distinguished design and a harmonious look in your kitchen and on your table.

Get cozy with Ida and Ora

The Nohr series includes a gooseneck kettle, a serving jug, a pour-over coffee dripper and a cold brew filter. The entire series has been created with a clean, pared-back design that looks amazing on the countertop yet boasts an emphasis on functionality. The serving jug is the continuous element that fits both the pour-over and the cold brew filter. The individual parts are sold separately, and you will typically start by buying a set for either cold brew or pour-over coffee, but it is also possible to make several types of coffee in the same jug by purchasing additional equipment. Designer: Søren Refsgaard
